

DROYLSDEN

Academy

Off-site and Residential Activities Guidelines

1 Introduction

- 1.1 These procedures cover instances where students and staff leave the Academy premises during the Academy day.
- 1.2 Droylsden Academy recognises that Academy trips and residential experiences are a valuable part of a young person's education. All students should be given the opportunity to participate in a trip or residential experience on at least an annual basis, although it is recognised that not all students will take such an opportunity.

2 Education Visits

- 2.1 The Department for Education has published extensive guidance about health and safety on educational visits. The guidance is to be found at www.gov.uk type 'health and safety schools' into Search.
- 2.2 The Principal shall designate a member of staff (from Student Services) to act as the Educational Visits Co-ordinator (EVC). It is the responsibility of the EVC to ensure that Governors and staff are advised of their responsibilities within the guidance. Compliance with the guidance is, however, a line management responsibility. It is the responsibility of the staff planning the trip to consider all aspects of student safeguarding and welfare. The Safeguarding and Student Welfare Policy sets out the details further.

3 Purpose:

- To extend students' learning experiences to educational resources beyond the Academy
- To experience different forms of teaching and learning
- To foster personal and social development
- To enhance peer and staff relationships

Throughout this policy, the term "parent/carers" means all those having parental responsibility for a child

Ratified by the Governors of the QCS Committee – 20th June 2014

- To develop enthusiasm for exploration and discovery
- To broaden personal horizons and awareness of educational opportunities
- To enjoy the learning experience

4 Guidelines

- 4.1 Approval for any visit must be given by the Principal via the procedure for educational visits.
- 4.2 Staff must ensure in advance of the visit that the venue and activity are fit for the learning purpose and that any external personnel are suitably competent. A preliminary visit should, wherever practicable, be undertaken. Where appropriate, a risk assessment should be carried out.
- 4.3 All visits and journeys must be under the supervision of at least one qualified member of the teaching staff.
- 4.4 Staffing levels for educational visits must be approved by the Principal.
- 4.5 Residential visits of mixed gender groups must be accompanied by both male and female responsible adults. Whenever possible, this principle should also be applied to non-residential visits.
- 4.6 Visit organisers must ensure that adequate insurance cover exists for the intended activity in accordance with the Academy regulations. This should be done by checking with the Finance Manager. The Finance Manager will also advise on appropriate insurance.
- 4.7 Visits to enhance National Curriculum learning should be equally accessible to students in accordance with the current legislation and the Academy's charging policy.
- 4.8 Staff are responsible for ensuring that suitable curriculum support materials, where appropriate, are available to maximise the learning opportunities.

Throughout this policy, the term "parent/carers" means all those having parental responsibility for a child

Ratified by the Governors of the QCS Committee – 20th June 2014

- 4.9 Full details of the visit(s), outlining times, venue(s), mode of transport, costs, supervision arrangements, function of visit and domestic arrangements must be sent in writing to parents/carers.
- 4.10 Parental consent must be given in writing for any intended visit, together with emergency contact information. In the case of regular sporting fixtures general written consent is acceptable. However, full details of fixtures, i.e. venues, times and participating students must be lodged with the office upon departure.
- 4.11 Visit organisers must ensure that parental consent forms are taken on the visit in the event of an emergency. Where the party is divided into different groups, i.e. for travelling, group leaders should hold consent forms for their group.
- 4.12 Visit organisers are responsible for ensuring that the link member of staff at Academy has up to date, accurate and full details of the arrangements.
- 4.13 Staff leading educational visits are responsible for ensuring that details of financial transactions are recorded and that any monies collected are stored securely, even if the money is collected by admin staff. This should preferably be in the Academy safe, lodged with the Finance Manager. Money should not be left in classrooms.
- 4.14 All financial transactions must be made through the Academy funds via the Finance Manager.
- 4.15 On all journeys where the Academy minibus is used to transport students, the driver shall be a fully insured employee of the Academy. The driver is responsible for carrying out preliminary safety checks, as outlined in the minibus logbook, prior to commencing a journey.
- 4.16 Where long journeys are planned using the Academy minibus, a second driver should accompany the visit.
- 4.17 On no account must the number of persons transported exceed the seating capacity of the vehicle.
- 4.18 The visit organiser must ensure that he/she takes a fully charged mobile telephone to use in the event of any emergency. The Academy's mobile telephone for use on educational visits is available for booking with the Finance Manager.

Throughout this policy, the term "parent/carers" means all those having parental responsibility for a child

Ratified by the Governors of the QCS Committee – 20th June 2014

- 4.19 Immediately prior to departure from the Academy, a final accurate list of staff and students participating in the visit shall be handed to the Academy office to be stored in the educational visits file.
- 4.20 Staff leading educational visits must ensure that they have made the necessary arrangements according to the visits pro-forma checklist and lodged a copy of the checklist with the Academy office.
- 4.21 Visit organisers should be aware that it may be necessary for any additional adults accompanying the visit to be police checked. Clarification from the Principal should be sought at an initial stage of planning.
- 4.22 Further copies for staff information should be displayed in the staffroom.

5 Daily procedures for students

- 5.1 This procedure is to be followed when parent/carers request leave from the premises for their child:
 - i If any parent/carer wishes to take their child out of the Academy during the day, they must write a letter of their intention to do so explaining the reason for the request. The letter should be dated and signed by the parent/carer and submitted, as far as is practicable, at least 24 hours in advance to the child's Year Manager or Head of Year. An appointments card should accompany medical appointments from the medical practice where the appointment has been made.
 - ii The Year Manager or Head of Year should sign and date the letter and return it to the student. If permission is not granted the Year Manager or Head of Year should contact the parent/carer. Further discussion may also be required with the appropriate Assistant Principal or Vice Principal.
 - iii The student should show the signed letter to the teacher whose teaching session they will be leaving. The teacher concerned should counter-sign the letter, granting permission to leave the lesson.
 - iv The student should then report to the reception with the letter, hand it in to the receptionist where the letter will be

Throughout this policy, the term "parent/carers" means all those having parental responsibility for a child

filed. The receptionist will then sign the student out and give a permission slip to the student. The student should then only leave the premises when the parent/carer collects them in person from reception.

- 5.2 In cases of emergency, a parent/carer may contact the Academy by telephone to arrange to take their child out. The appropriate Year Manager or Head of Year must be informed. The student must then follow the signing-out procedure.
- 5.3 When students arrive or return to the Academy during the day, they should be accompanied by a parent/carer who should report to reception and sign their child in. The receptionist will complete a Signing-In slip. The student should then proceed immediately to their lesson.

6 Daily procedures for staff

- 6.1 Staff wishing to leave the Academy during the day must sign the Signing-Out book in reception on departure.
- 6.2 On return or arrival during the day, staff must sign the Signing-In book.

7 Risk Assessment and potential hazards

7.1 The Nature of Risk Assessment

Risk assessment and risk management are legal requirements under health and safety legislation. For educational visits, this involves a careful examination of any potential causes of harm in relation to the visit (*assessment* of risk) and what precautions should be put in place to minimise these (*management* of risk). The overall aim is to make sure that no-one gets hurt or becomes ill during the course of the visit.

Risk assessments should explicitly cover issues arising from any additional needs of Students taking part in the visit, including medical needs. If the visit involves lengthy periods of time spent outdoors, a contingency plan should be in place in case bad weather means that the planned activities are not possible.

Risk assessment for educational visits can be usefully considered a having three levels:

Throughout this policy, the term "parent/carers" means all those having parental responsibility for a child

- **Generic risk assessments** for particular activities - these relate to the nature of the activity and are likely to apply wherever and whenever the activity takes place;
- **Specific risk assessments** for particular visits - these relate to the venue for the visit and the age of the Students taking part, and will vary from place to place and group to group;
- **On-going risk assessments** once a visit has commenced - these relate to changing conditions which may arise during the course of the visit, such as deterioration in the weather conditions or the illness of a student or member of staff.

7.2 Carrying Out Risk Assessments

In one sense, any school visit has potential hazards, such as supervising children across a busy road. However, some activities are generally regarded as more hazardous than others - ski-ing, rock climbing, water sports etc - and particular care needs to be exercised in arranging school visits of this type.

General advice on the carrying out of risk assessments can be found in a booklet produced by the Health and Safety Executive, entitled "Five Steps to Risk Assessment" www.hse.gov.uk/risk/fivesteps.htm. The important things are to decide whether a hazard is significant, and whether sufficient precautions have been put in place so that any risk from the hazard is small.

The five steps recommended by the HSE - which apply to any activity, not just an educational visit - are as follows:

- STEP 1:** Identify any significant hazards which could result in serious harm
- STEP 2:** Identify who might be harmed - and how - for each of these hazards
- STEP 3:** Evaluate the risk that somebody will be harmed by the hazard, and identify what precautions are needed to make the risk small
- STEP 4:** Record your findings by writing down the significant hazards identified and the steps you have taken to minimise any risk.
- STEP 5:** Review your risk assessment in the light of experience and revise it, if necessary.

Throughout this policy, the term "parent/carers" means all those having parental responsibility for a child

Evaluation of the level of risk at Step 3 is very much a matter of professional judgement and common sense. Rating scales are frequently used in risk assessment procedures, although these are not essential. For those who find such a system helpful, the following guidelines are recommended. Taking each hazard under consideration separately:

- Consider the **likelihood** of harm taking place in terms of a 5-point scale:

0 = Zero/Very Low

3 = Likely

1 = Very Unlikely

4 = Very Likely

2 = Unlikely

5 = Almost Certain

- Consider the **severity** of harm taking place in terms of a 5-point scale:

0 = No injury or illness

3 = Significant injury or illness

1 = First aid injury or illness

4 = Major injury or illness

2 = Minor injury or illness

5 = Disabling or fatal injury or illness

- Multiply together the two numbers to give an **overall risk rating** on a 1 - 25 scale:

0 - 5	Insignificant Risk
6 - 12	Low Risk
13 - 18	Medium Risk
19 - 25	High Risk

Throughout this policy, the term "parent/carers" means all those having parental responsibility for a child

Ratified by the Governors of the QCS Committee – 20th June 2014

For any activities which are rated as “Medium Risk” or “High Risk”, visit leaders should consider carefully whether suitable precautions can be put in place to reduce the level of risk. If not, careful consideration should be given to abandoning that particular activity on the visit.

7.3 Involving Students in Risk Assessment

Students who are involved in a visit’s planning and organisation, and who have been well prepared by their teacher(s), are more likely to take informed decisions during the course of a visit and therefore be less at risk. Any type of educational visit can provide an important medium for Students to learn about the nature of risk, and how particular risks can be minimised.

There are some examples set out in Annex A of the Health and Safety advise on legal duties and powers of ways in which schools might cover the National Curriculum statements relating to hazards, risks and risk control. Although involving Students in risk assessment, both before and during an educational visit, is good practice, it is important to remember that the final responsibility for assessment and control of risk remains with the visit leader and other supervisory staff.

7.4 First Aid

First aid should form part of the risk assessment. Before undertaking any off-site activities the group leader should assess what level of first aid might be needed. On any kind of visit the group leader should have a good working knowledge of first aid and ensure that an adequate first-aid box is taken. For adventurous activities, visits abroad or residential visits it is sensible for a least one of the group’s teachers to be fully-trained first aider. All adults in the group should know how to contact the emergency services.

The minimum first-aid provision for a visit is:

- A suitably stocked first-aid box;
- A person appointed to be in charge of first-aid arrangements

Other considerations when considering first-aid needs should include:

- The numbers in the group and the nature of the activity;
- The likely injuries and how effective first aid would be;
- The distance of the nearest hospital.

Throughout this policy, the term “parent/carers” means all those having parental responsibility for a child

Ratified by the Governors of the QCS Committee – 20th June 2014

First aid should be available and accessible at all times. The Health and Safety Executive recommends the following minimum contents for a travelling first-aid box where no special risk has been identified:

- A leaflet giving general advice on first aid;
- 6 individually wrapped sterile adhesive dressings,
- 1 large sterile unmedicated wound dressing approximately 18cm by 18cm;
- 2 triangular bandages;
- 2 safety pins
- Individually wrapped moist cleaning wipes;
- 1 pair of disposable gloves;
- A resuscitator (for hygienic mouth to mouth resuscitation) would also be useful.

All minibuses are required by law to carry a first-aid kit.

7.5 Visits to the Coast or Tidal Waters

There can be a degree of risk in any activity where Students are close to the coast or tidal waters, such as the danger of individuals or groups being swept from rocks or cut off by unusual tidal conditions.

Risks of this type can be minimised by seeking the advice of the local Coastguard about the state of the tides and the prevailing weather conditions before embarking on a visit to the coast. Schools should ensure that the Coastguard is contacted if there is any possibility of the visit being affected by tidal or weather conditions, and the visit should only go ahead if the visit leader is fully satisfied that the prevailing conditions pose no threat to Students or staff. The potential for danger always exists in visits to the coast or tidal waters and every effort must be taken to minimise such danger.

Various programmes - ranging from basic water safety and rescue skills to a professional Lifeguard Qualification are available from Lifesavers, The Royal Life Saving Society UK - www.lifesavers.org.uk

7.6 Field Trips

Field trips, which are arranged as an integral part of the curriculum, must be treated just as rigorously in terms of safety considerations as would any other school visit. They may also include their own specific hazards, for example a Geography field trip involving the collection of rock specimens and requiring the use of protective equipment such as goggles and hard hats. Visit Leaders must carry out a thorough risk

Throughout this policy, the term "parent/carers" means all those having parental responsibility for a child

assessment and ensure that appropriate measures are taken to minimise any identified risks before embarking on the visit or carrying out any fieldwork.

7.7 Farm Visits

Farms can be dangerous places even for the people who work on them and any visit to a farm should be carefully planned. In general, it is important to check that the farm is well-managed, that it has a good reputation for safety standards and animal welfare, and that it maintains good washing facilities for use by Students and clean grounds and public areas.

Further advice can be found in the booklet "Stay Safe - Farm Safety" available from the Health and Safety Executive <http://books.hse.gov.uk> (enter "Farm Safety" in keywords).

Schools should be aware of the danger of children being infected by the E-coli bacterium (leading to possible brain damage) by visiting farms. The bacterium is usually transmitted by young children sucking their fingers and thumbs after touching animals or farm property such as a fence.

Throughout this policy, the term "parent/carers" means all those having parental responsibility for a child

Ratified by the Governors of the QCS Committee – 20th June 2014

As always, the key to a safe and successful visit is a thorough risk assessment carried out in advance, with the risks being explained and discussed with Students. In this way, Students can be made aware of the potential dangers before a visit to a farm, and the importance of washing hands after touching or feeding animals can be stressed. Some of the HSE material is very useful in this respect.

8 Charging, Remissions, Insurance and Voluntary Contributions

Charging

8.1 The Governing Body reserves the right to make a charge in the following Circumstances for activities organised by the Academy:

- School trips and residentials in school time: the board and lodging element of the residential experience and outdoor pursuits courses;
- Activities outside school hours: the full cost for each student of journeys, trips and overnight stays in the United Kingdom and abroad which take place at weekends and during holidays, which are deemed to be optional extras;

8.2 Remissions

Where the parent/carer of a student is in receipt of qualifying state benefit(s), the Governing Body will remit in full the cost of board and lodging for any residential activity that is organised for the student and which takes place within the school time. This will also be the case where the residential activity forms part of the syllabus for a public examination.

The Governing Body may remit charges in full or in part to other parent/carers after considering other specific hardship cases. The Governing Body invites parent/carers to apply, in the strictest confidence, for the remission of charges in part or in full. The Principal will authorise remission in consultation with the Chair of Governors.

8.3 Insurance

Any insurance costs will be included in charges made for trips or activities.

8.4 Voluntary Contributions

Throughout this policy, the term “parent/carers” means all those having parental responsibility for a child

Ratified by the Governors of the QCS Committee – 20th June 2014

Nothing in this policy statement precludes the Governing Body from inviting parents to make voluntary contributions. The Governing Body should make clear that such contributions are voluntary, that students of parent/carers who do not contribute will not be discriminated against, and that if insufficient contributions are received the trip may be cancelled.

9 Monitoring, Evaluation and Review

- 9.1 The Governing Body will review this policy at least every two years and assess its implementation and effectiveness. The policy will be promoted and implemented throughout the Academy.
